

CARE INSTRUCTIONS

(取扱説明書)

Reborn doll is a collectible art doll and needs to be handled carefully. Collectibles are meant to last and should be handled with care. Yet you can give your reborn doll your gentle affection and a lot of love like you would do for a real baby.

HANDLING AND DRESSING Don't toss your reborn doll around. Never force your reborn doll's head, hair and limbs into clothing or hold your reborn doll by his/her head, hair or limbs. Doing these things could result in damage that's costly and difficult to fix.

Make sure the outfits are clean before dressing your reborn doll. Sometimes the dyes in the outfits can stain your reborn doll.

TEMPERATURE AND MOISTURE Keep your reborn doll at a comfortable temperature and moisture like you would do for yourself or for a real baby. High temperature destroys your reborn doll's vinyl parts. Also extended exposure to cold weather can crack your reborn doll's vinyl parts. Never leave your reborn doll in a moist area. Never leave your reborn doll in direct sunlight. Never leave your reborn doll in a car in any weather.

CLEANING Never submerge your reborn doll in water. When your reborn doll becomes dusty, take a feather duster or lint-free soft cloth and give it light but thorough wiping down. For basic cleaning, you should be able to brush it down with a feather duster to remove the majority of dust and dirt on its surface. Do not use any cleaning products, as some of them contain harmful chemicals that may stain or even strip the paint off of your reborn doll.

EYES Your reborn doll's eyes are set in place with waterproof glue. Please do not try to reposition them as this can cause them to become dislodged.

MOHAIR HAIR Never brush your reborn doll's hair when it is dry. The mohair hair can break with rough styling. Using a soft baby brush to brush your reborn dolls' hair is recommended. Just like with human hair, lightly dampen your reborn doll's hair or wet the soft tooth brush with clean water then gently style from the bottom to the top to avoid pulling the hair out. Be careful when brushing around the ears; do not scratch the ears with the brush. Always Air Dry, never blow dry your reborn doll's hair as this can cause scorching to the mohair hair.

PAINTED SKIN AND HAIR Never use anything sharp near your reborn doll as this could scratch your reborn doll's paint. Never use any writing implement near your reborn doll as this could stain your reborn doll.

WING There is a safety pin at back of the wing. Attach the wing into your reborn dolls outfit. Never attach directory into your reborn doll. Be careful to attach the wing into the outfit; do not scratch your reborn doll with the safety pin. Shape the wing by gently bending.

Due to the fillings and small parts, this reborn doll is NOT suitable for small children. Please keep your reborn doll away from children and pets.
